EDUCATION

Sri Eshwar College of Engineering	**B.Tech(CSBS)**	**CGPA 7.9(upto 4th sem)**	**2023 - 2027**
Aksharam International School	**HSC**	**67%**	**2022 - 2023**
Angappa CBSE School	**SSLC**	**87%**	**2020 - 2021**

INTERNSHIPS

MERN STACK **2025**

Gained hands-on experience in developing projects using the MERN stack (MongoDB, Express, ReactJS, and NodeJS). This internship, offered by The Better Tomorrow Technologies Institute, enhanced my skills in full-stack development and practical implementation of these technologies.

FLUTTER **2025**

Developed cross-platform mobile applications using Flutter, Google's open-source UI toolkit. Utilized Dart programming language to build natively compiled apps for Android, iOS, web, and desktop from a single codebase.2026

BUSINESS ANALYST

Gained hands-on experience as a Business Analyst Intern at App Innovation Technologies, where I worked on data analysis and business improvement tasks. This internship enhanced my skills in data cleaning using Excel, documentation through Google Docs, UI wireframe design in Figma, and building interactive dashboards using Power BI and Tableau for effective business insights, basics of python(Pands, NumPy).

PROJECTS

SHIVA TEXTILES WEB ENHANCEMENT - GITHUB **2026**

Shiva Textiles Web Enhancement is a data analytics and business improvement project aimed at organizing textile sales data and enhancing decision-making. The project involved cleaning and structuring data, designing wireframes for better web interface planning, and creating interactive dashboards to visualize sales and performance insights. Reports were documented to support business analysis and management decisions.

Tech Stack: Flutter, Dart, Firebase, Firestore, Stripe API, Git, GitHub, Android Studio / VS Code.

AI-RESUME ANALYZER - GITHUB **2025**

Developed a tool to analyze resumes based on Applicant Tracking System (ATS) criteria by extracting keywords, skills, and resume structure from PDF documents. The system evaluates resume content, calculates an ATS compatibility score, and provides feedback to help improve resume quality for better chances in automated recruitment systems.

Tech Stack: Python, VS Code, Pandas, NumPy, NLTK / spaCy, Streamlit, PyPDF2, Matplotlib, Virtual Environment (venv).

CUSTOMER CHURN PREDICTION SYSTEM - GITHUB **2025**

Developed a machine learning model to predict telecom customer churn with ~82% accuracy, using end-to-end data preprocessing, feature engineering, and model evaluation.

Tech Stack: Python, VS Code, Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, Streamlit, Joblib, Virtual Environment (venv).

TECHNICAL SKILLS

Languages: C, C++, JavaScript , Flutter
Technologies/Frameworks: HTML5, CSS3 **Tools:** VS Code , Canva, Android Studio **Cloud/Databases:** MySQL , MongoDB, Firebase
Core Concepts: Data Structures & Algorithms, Object Oriented Programming

PROGRAMMING

LEETCODE: 1400+ Rating, Solved **50+** Problems - LeetCode Profile
SKILLRACK: Solved 600+ problems - Skillrack Profile

ACHIEVEMENTS

TECH CONNECT: Secured 2nd prize in TechConnect Conducted in Sri Eshwar College Of Engineering **2024**

CERTIFICATIONS

Certified in Mern Stack	Better Tomorrow	**2025**
Certified in Learning React	Infosys	**2025**
Certified in Basic of Python course	Infosys	**2024**
Certified in SQL(Basic)	Hackerrank	**2024**
Certified in SQL(Intermediate)	Hackerrank	**2024**
Certified in SQL-Basics (Standard)	SkillRack	**2024**
